

DATA SECURITY LAW BY STATE

NEW YORK

Enacted the **Stop Hack and Improved Electronic Data Security Act (SHIELD Act)**

MAINE

Enacted **New Act to Protect the Privacy of On-line Consumer Information**. The act prohibits ISPs from using, selling, or distributing consumer data without their consent

VERMONT

Became the first state in the nation to regulate **data brokers** that collect and sells personal information about consumers attempting to add a new layer of accountability to data trading companies that often operate without much oversight.

DELAWARE & NEW HAMPSHIRE

Have become the latest states to add to the insurance cybersecurity landscape by **enacting information security laws**

OHIO

The new Ohio Senate Bill created new cybersecurity requirements for insurance companies, including health plans.

MASSACHUSETTS

Added **New Requirements to Breach Notification Law and Credit Reporting Law**. The law expanded data breach notification requirements and extended state consumer protections in the areas of credit reporting

NEW JERSEY

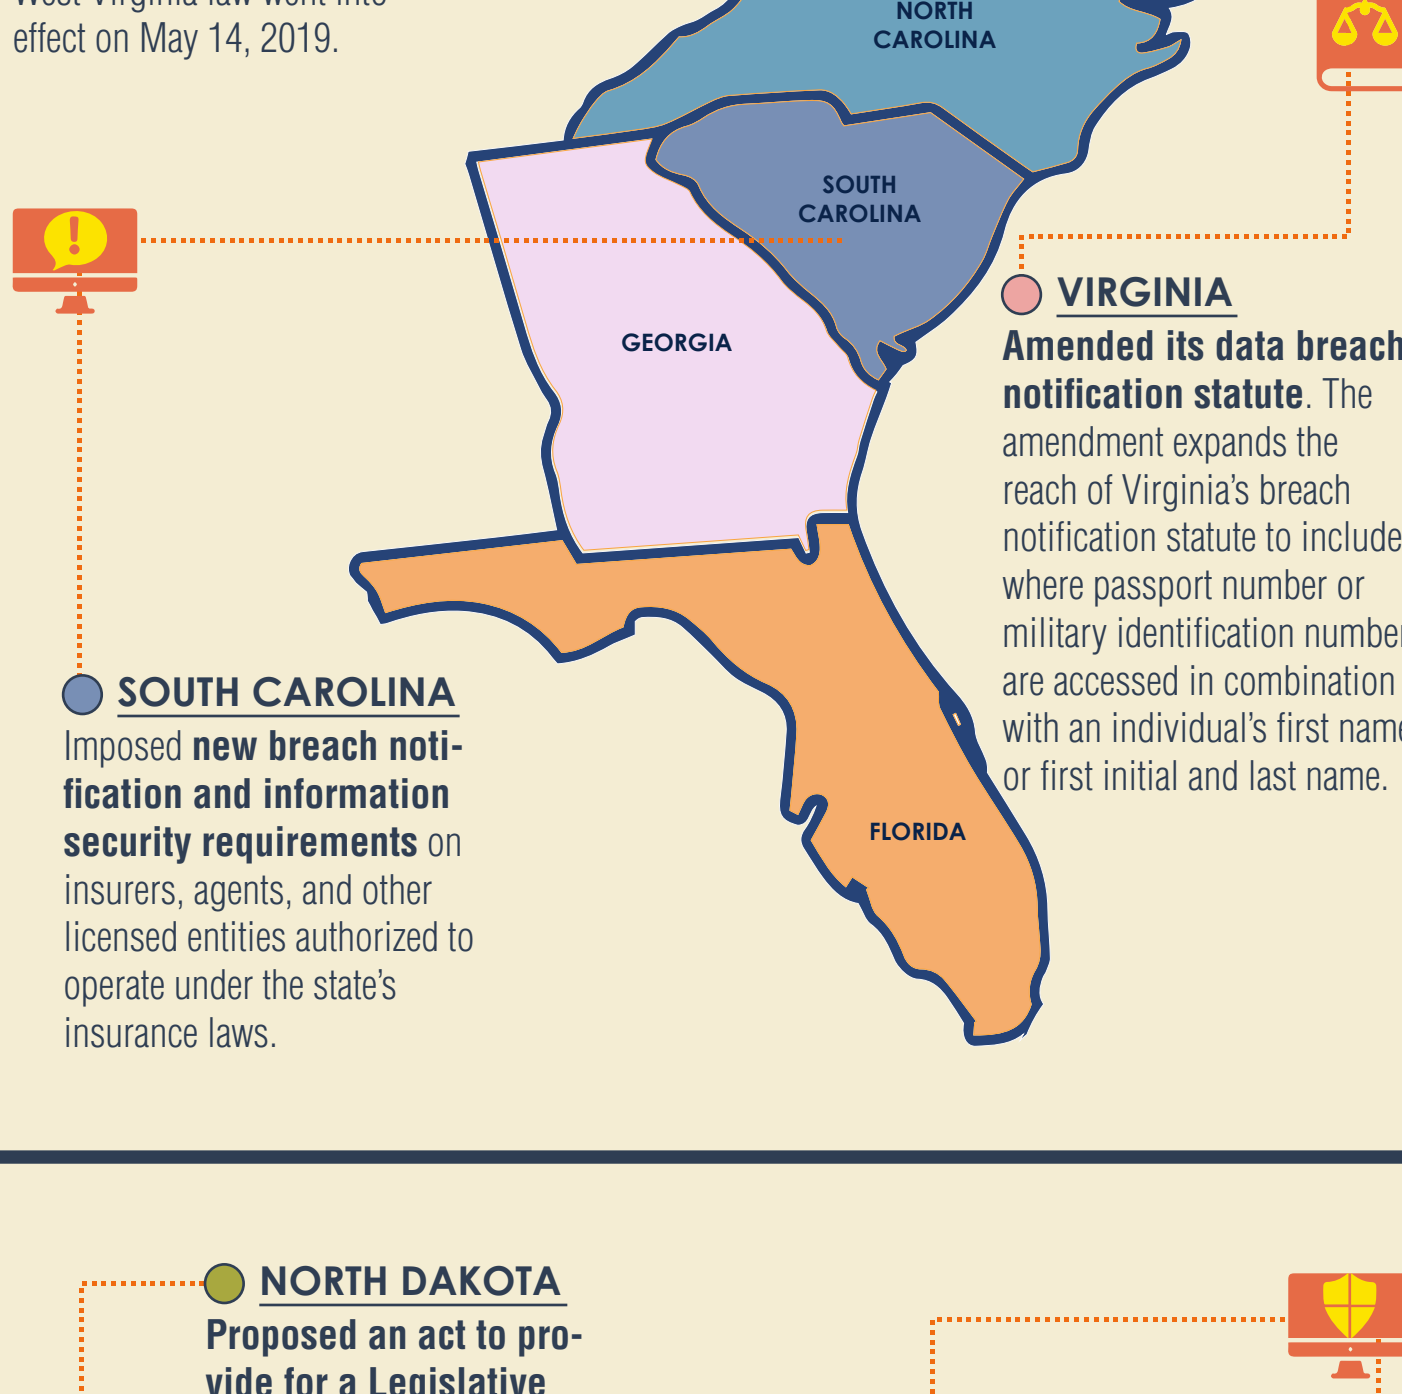

Proposed an **Act Concerning Commercial Internet Websites, Online Services, and Personally Identifiable Information**.

MARYLAND

A bill was signed to **amend the security breach notification requirements of Maryland's Personal Information Protection Act**. The amendments expand data breach investigation requirements to businesses that maintain computerized personal data but do not own or license that data

CONNECTICUT

A new **Insurance Data Security Law** was signed. The law imposes new information security, risk management, and reporting requirements for carriers, producers, and other businesses licensed by the Connecticut Insurance Department ("CID").

WEST VIRGINIA

Created a **Cybersecurity Office** through the enactment of **West Virginia House Bill 2452**. The new West Virginia law went into effect on May 14, 2019.

SOUTH CAROLINA

Imposed **new breach notification and information security requirements** on insurers, agents, and other licensed entities authorized to operate under the state's insurance laws.

VIRGINIA

Amended its data breach notification statute. The amendment expands the reach of Virginia's breach notification statute to include where passport number or military identification number are accessed in combination with an individual's first name or first initial and last name.

NORTH DAKOTA

Proposed an act to **provide for a Legislative Management Study of Consumer Personal Data Disclosures**. This proposed bill prohibits the disclosure of personal information to a third party without express written consent from an individual.

ALABAMA

has become the latest state to pass a law mandating heightened standards within the **insurance industry for cybersecurity and data privacy**.

ARKANSAS

Enacted **amendments to the Arkansas Personal Information Protection Act**. The amendments add "biometric data," such as fingerprints, retina scans, voiceprints, and DNA data, to the law's definition of "personal information."

TEXAS

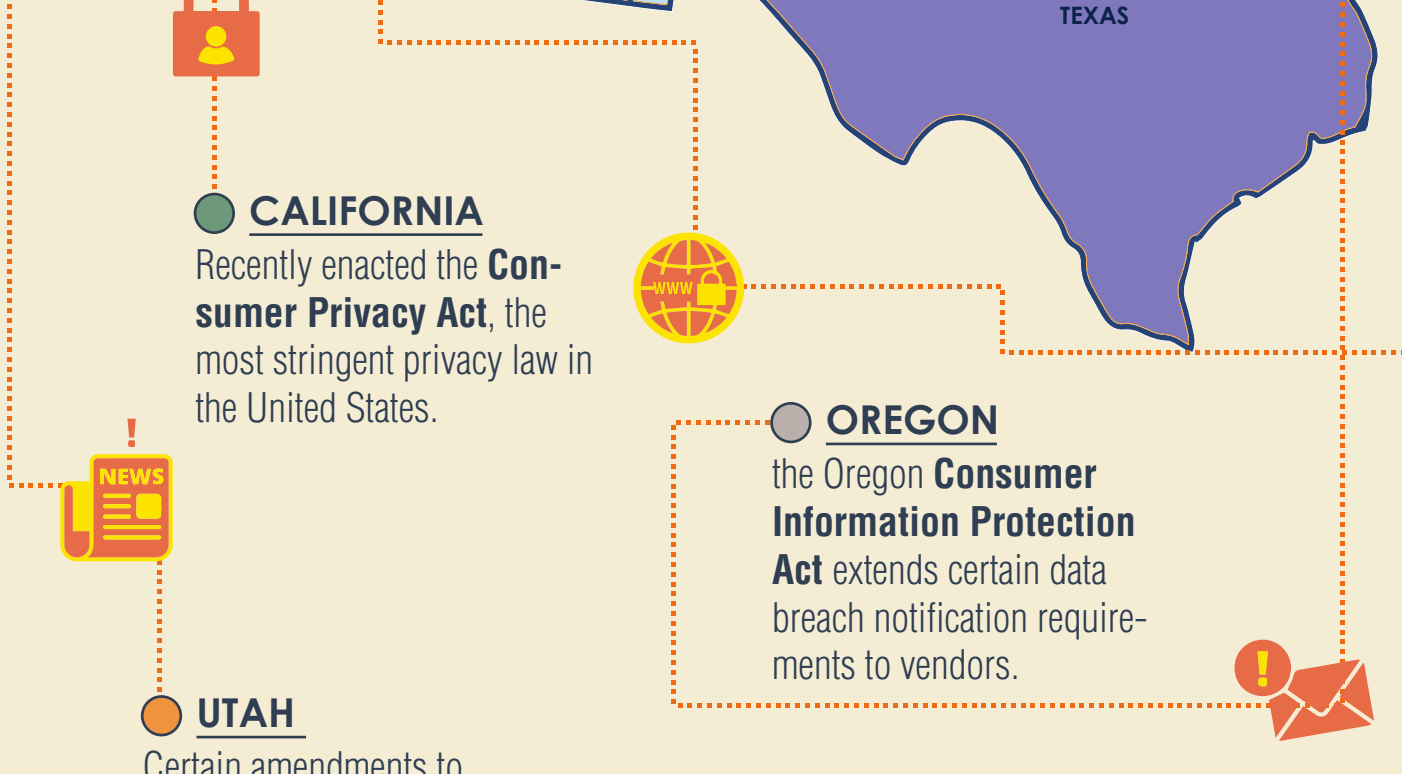

Enacted **Identity Theft Enforcement and Protection Act**. The amendments also now require notification to the Texas attorney general if a breach involves at least 250 Texas residents.

WASHINGTON

Enacted the **Washington Privacy Act**; this bill grants consumers the right to access data that companies have about them, the right to deletion, the right to correct inaccurate information, the right to opt-out, and the right to restrict or object to the processing of data.

NEW MEXICO

Enacted **Consumer Information Protection Act**. The New Mexico bill has more limited disclosure obligations about privacy practices that businesses must make in order to increase their transparency.

CALIFORNIA

Recently enacted the **Consumer Privacy Act**, the most stringent privacy law in the United States.

OREGON

The **Oregon Consumer Information Protection Act** extends certain data breach notification requirements to vendors.

UTAH

Certain amendments to **Utah's Protection of Personal Information Act** became effective currently. Under the new law, notice by publication is permitted only for Utah residents for whom notification by other permissible means "is not feasible."

NEVADA

Proposed **amendments (SB 220) to its online privacy notice law** (NRS 603A.300-360), which focuses on Internet privacy.

HAWAII

Hawaii's bill is modeled after the California's Consumer Privacy Act, but has a broader reach since it does not define a business. Thus, the law can potentially extend to all businesses, regardless of size, that operate in Hawaii and collect the personal information of an individual.
