

LIQUIDTECHNOLOGY

CORPORATE ITAD TRENDS 2023

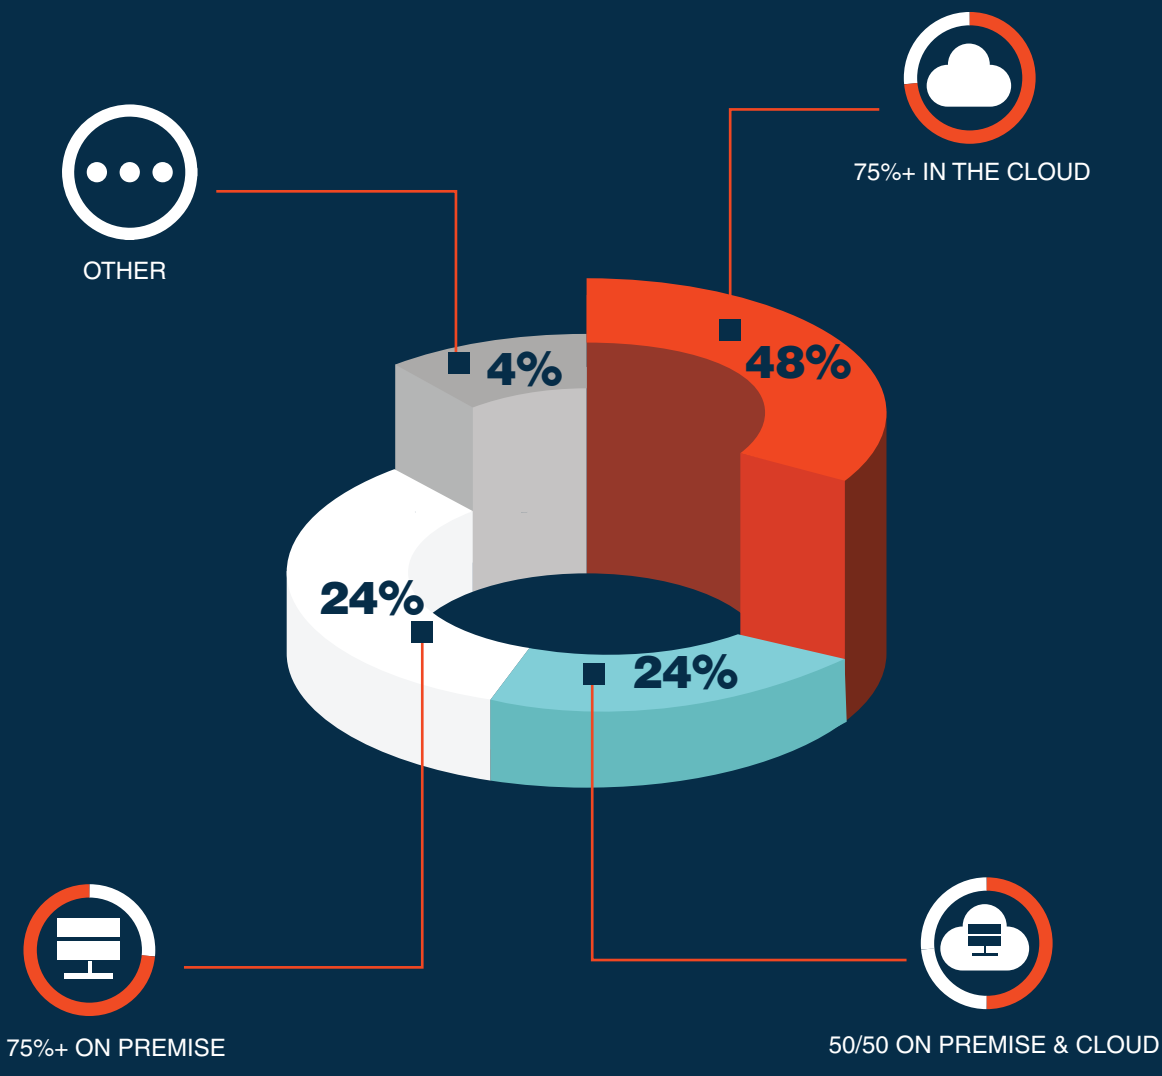

Liquid Technology surveys its clients annually to learn more about ITAD industry trends. This year, the survey included questions about infrastructure, IT spending, and hardware. We created an infographic to highlight some of our key findings.

WILL YOU BE UPGRADING YOUR OS?

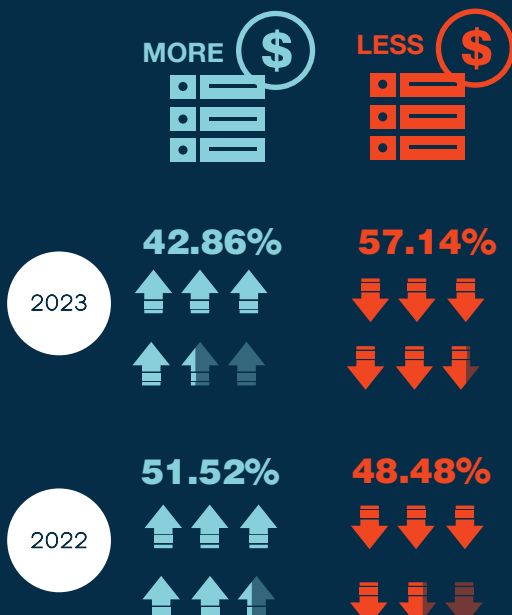

29% of respondents have no plan upgrading to a newer OS.

WHAT PERCENTAGE DOES YOUR COMPANY PRIMARILY UTILIZE ON-PREMISES/ REMOTE DATA CENTERS OR SAAS/CLOUD?

Majority of companies surveyed are utilizing the cloud 50% or more.

DO YOU EXPECT TO SPEND MORE OR LESS ON IT HARDWARE IN 2023 THAT YOU DID IN 2022?

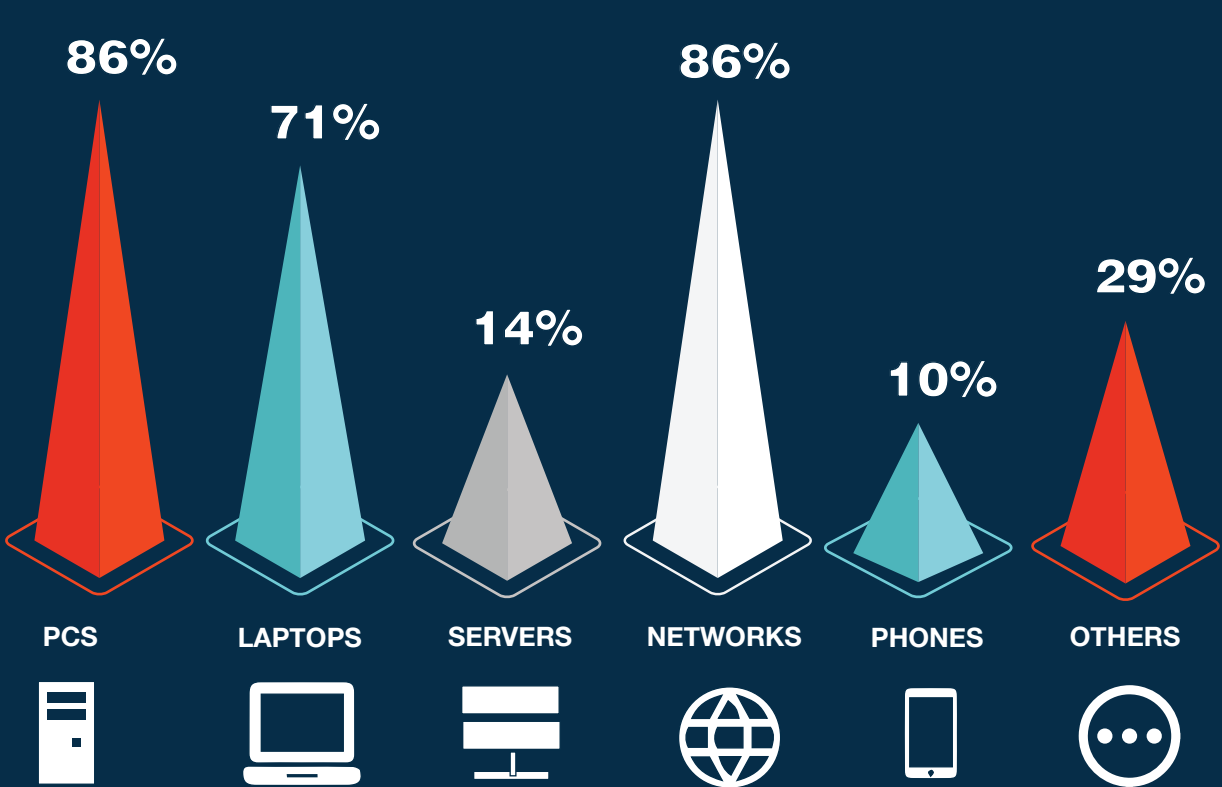

OVER 57% of companies plan to spend less on hardware in 2023. In 2022 companies planned to spend more.

ARE THERE ANY FACTORS DELAYING IT REFRESH PROJECTS IN 2023?

WHAT TYPES OF HARDWARE DO YOU PLAN ON RETIRING?

ABOUT LIQUID TECHNOLOGY

Liquid Technology's three primary services include computer liquidation, IT asset management services, and NIST-compliant data destruction. The company also provides environmentally-responsible e-waste recycling services, and in 2010 introduced one of the country's first mobile hard drive shredding services. Clients of Liquid Technology come from a broad spectrum of industries, most of whom are in various transitional situations from moving to merging, downsizing, or simply updating their current IT infrastructure.

Liquid Technology provides fair asset evaluations and impartial solutions to companies in need of managed IT asset-disposition. An acute understanding of current market conditions enables Liquid Technology to integrate specialized knowledge and technological expertise in the proposal and execution of deliberate business strategies and plans of action for asset disposal and recovery.
